of Late Rulers Is Not, on Its Hands.

Washington, February 23 .- Ambassador Henry Lane Wilson telegraphed Foreign Affairs, had invited all for-eign diplomats in Mexico City to take luncheon with him to-morrow. The ambassador stated that none of the diplomats would attend the luncheon. diplomats would attend the luncheon unless the tragic death early to-day of former President Madero and former Vice-President Suarez is cleared

This decision on the part of the diplomatic corps in the Mexican capital in-dicates the gravity of the situation, which will confront the Huerta gov-ernment should it fail to clear the ystery enveloping the killing of Maero and Suarez.

No official comment was forthcoming here to-night on the statements re-lating to the tragedy made by Senora la Barra and Provisional President lerta, but it was taken for granted at if the late leaders were brutally murdered as the result of a plot the present government would be called upon for an explanation, when it seeks political recognition from the United

tion to showing itself equal to the im-mense problems of reconstruction be-fore it, including the re-establishment

from Ambassador Henry Lane Wilson, at Mexico City, telling of the killing of Madero and Suarez.

Mr. Wilson explained that the embassy was informed of the double tragedy last night by Minister for Foreign Affairs De la Barra, who said that the deposed leaders had been killed while being transferred from the National Palace to the penitentiary. Senor De La Barra asserted that the transfer was being made in behalf of the Matches of the penitentiary.

ROCKEFELLER, BOSH transfer was being made in behalf of the Mexican government. The Ameri-cans, to show their appreciation of this recognition, then decorated the statue of the Mexican hero, Benito Juarez. The spirit of rejoicing, the ambassador declares, gave way to horror, as the news of the tragedy spread through-

White House. The President, who, be-fore leaving New York, saw in the present deplorable occurrence, no cause for intervention, made no further comment on the tragedy which was enacted in the Mexican capital, after the United States had given the Huerta government to understand that it would look with disfavor upon any summary measures against Madero and Suarez. Consular reports received at the State consular reports received at the State Department to-night indicated general adhesion to the Huerta regime at the City of Mexico, with the exception of Chihushua and Sonora, where the local situation does not seem to be wholly developed. Additional Orders Given.
Orders were sent this afternoon by the War Department to the Fourth Brigade, headquarters at Chicago, to be in instant readiness to entrain for Galveston. The War Department has just completed plans for gradual concentration at Galveston of more troops than it has yet been announced would be sent there. The idea is to keep before the Mexican people news of the military activity, which points towards military activity, which points towards intervention. The plan on foot is capable of considerable extension, and its elasticity will be called into full play if the course of events in Mexico warrants it.

General Aleshire, who is the head of the quartermaster department, an-nounces that he is ready to receive an entire army division if necessary and could provide for a large body of troops with much more efficiency than has marked the handling of any pre

tion to showing itself equal to the immense problems of reconstruction before it, including the re-establishment of law and order in states so long torn by revolution, Mexico will be asked to show that the blood of its late rulers is not upon its hands.

[Special Cable to The Times-Dispatch.]

London, February 23 .- The Observer on forecasting navy estimates, says there will be five new armored ships of the hybrid type—neither battleship nor cruiser. They will be vessels of about 28,000 tons, with armor belt thirteen and a half inches thick and a will be eight light armored cruisers— the torpedo destroyer is to disappear, and in their places marine torpedo craft will be built. They will be de-stroyers capable of submersion and available for attack both night and day. The details are kept secret, but they will have a greater radius of ac-tion than any destroyers affoat. A number of small submarines are also to be built for coast defense.
